

SHURESTAR

Advanced Solutions to Real Problems

Product Line Card

DOOR AND PRODUCT TYPES:

VERTICAL LIFT DOORS

- DOMINATOR
- Steel Heavy Duty
- High Speed
- Full Knockout

FOLDING DOORS

- DOMINATOR
- Steel Panels
- Sallyport
- Parking Structure Gates

SLIDING DOORS

- Single and Bi-Parting
- Multiple Panel
- High Security Gates

SWING

- Single and Double
- Fiberglass Panels
- Oversized

TURNOVER - CANOPY - SWING UP

- DOMINATOR
- Steel Panels
- Crane Way Cut Outs

MISCELLANEOUS

- Bascule Bridges
- Roof Hatches
- Powered Architectural Products

CONTROL AND SAFETY SYSTEMS:

CONTROL SYSTEMS

- Integrated Loading Dock Combination Control Panels
- Pushbutton and Automatic Doors
- UL 508-A labeled Systems
- Specialty Automotive Grade Systems
- Electric/Pneumatic/Hydraulic
- Custom and Private Labeled
- NEMA Type 1, 4, 7/9, or 12 Systems

ACTIVATION OPTIONS

- Electric Eyes/Loop Automatic Systems
- Motion Sensors
- Radio Control
- Machine Interlock
- Traffic Lights, Bells, Buzzers or Strobes

IN-PLANT SAFETY SYSTEMS

- Intersection Caution Systems
- Pedestrian Warning Light
- Auxiliary Forklift Warning Light

SPECIALTY FEATURES:

- Impact Resistant
- Blast Resistant 100 PSF to 6000 plus PSI
- Bullet Resistant Level 1 -8
- Fire Resistant 30 min to 4 hr
- Radiation Shielding—Concrete, Lead, Steel or Alloy Shields
- Acoustic Riverbank Laboratories tested STC 26 to STC 60
- Specialty Gates for security and parking garages
- Water Tight tested to 55 PSI
- Air and Gas Tight—ASTM E283 Leakage Tested -E330 Structural
- Laser Light Tight
- Stamped P.E. Calculations in all 50 States and Washington D.C.

DOOR OPERATORS AVAILABLE IN

- Electric
- Hydraulic
- Pneumatic
- Manual

If your Specialty Door or System is not listed here, please contact us. We have many additional specialty products and designs which we can use to support and interact with your staff to design and manufacture to the specific application requirements.
